I am an 18 year old undergraduate student studying Computer Systems Engineering at the University of Birmingham, with an expected graduation year of 2018. My hobbies include experimenting with electronics and reading pretty much whatever I can get my hand on.

EXPERIENCE

Austin Crime Zone

OCTOBER 2014

URL: http://danfoad.co.uk/austin-crime-zone
Skills: HTML, CSS, JavaScript, JSON, jQuery, Google Maps API, QUnit

Web App using a JSON stream of crime metrics from Austin police department with Google's Map API to allow users to see how dangerous an area is.

Stats Central — *StatsCentral*

FEBRUARY 2015

URL: http://statscentral.gg/
Skills: HTML, CSS, JavaScript, jQuery, PHP, JSON

Statistical representational database for League of Legends champions and events, custom-built to client's specifications, mobile responsive

Kilobitcoin Homepage — *Waveright*

OCTOBER 2015

URL: http://kilobitcoinhomepage.com/
Skills: HTML, CSS

Given a pre-bought theme from the client, I made modifications according to the presented specifications to add a modern, mobile-responsive detail to the site.

EDUCATION

University of Birmingham — *BEng Computer System Engineering*

SEPTEMBER 2015 - PRESENT
